

# WEBINAR

**From Innovation to Scale Up:  
Potential of pulses fortification to  
improve micronutrients malnutrition  
in Nutrition International's program  
and beyond**

**15 December 2020**

**#InvestinIR**

# Webinar objectives

Gain a better understanding of

- ❑ Importance of pulses as a vehicle for fortification
- ❑ Trade, marketing, policy, and industry considerations
- ❑ Application of the lessons learned from other fortifications
- ❑ Relevancy of implementation science for pulse fortification programs
- ❑ Implementation considerations and future opportunities

# Why Pulses

- ❑ Powerhouse of nutrients - an important source of energy and dietary fiber
- ❑ Global availability of pulses has been increasing since 2000
- ❑ Inexpensive source of protein
- ❑ Climate-smart source of protein
